Microban®
microbial product protection

WHAT IS MICROBAN® ANTIMICROBIAL PRODUCT PROTECTION?

*Microban antimicrobial protection fights and inhibits the growth of mold, mildew, and bacteria that can shorten filter life. Microban protection is built into the fibers during the manufacturing process, so it won't wash off or wear away, giving antimicrobial protection that lasts the useful lifetime of the filters. Included with the VF3500, VF5000, and VF6000 filters shown here.

Microban treated filters are standard in the WD7000, WD4522, WD4070, WD1956, WD1851, WD1450
